

## AFNOR TERMINAL UNITS

**AFNOR terminal units are conceived and realized according to the Directive 93/42/EEC and related ISO 7396-1, EN 9170-1, EN 737-1, EN 737-3 norms.**

**The terminal units can be mounted either in flush, surface box as well as in bed-head units and ceiling pendants.**

They are composed by:

- Nickel-plated gas specific terminal unit realized according to the EN 9170 and AFNOR NFS 90-116 norms
- Brass base-block UNI 9507 norm

The base-block has a built in anti return valve for maintenance

GAS	VACUUM
A	Ø 7
B	Ø 8,1
GROOVES N°	2

GAS	NITROUS OXIDE
A	Ø 7
B	Ø 7,1
GROOVES N°	4

GAS	OXYGEN
A	Ø 7
B	Ø 8,1
GROOVES N°	3

GAS	MEDICAL AIR
A	Ø 8
B	Ø 7,1
GROOVES N°	2

GAS	CARBON DIOXIDE
A	Ø 5
B	Ø 7,1
GROOVES N°	5

GAS	NITROGEN
A	Ø 5,5
B	Ø 7,1
GROOVES N°	4
